MANTH: Mid-Atlantic Nanotechnology Hub (Penn Singh Center + CCP)

Singh Center for Nanotechnology

- 11,000 ft² (1021 m²) class 100/1000 cleanroom
- 10,000 ft² (929 m²) imaging and characterization

Community College of Philadelphia (CCP)

- 19,000 students (41% African American, 16% Hispanic/Latino, 11% Asian, 23% White)
- Title III eligible institution: low-income student population
- The **School District of Philadelphia**, a Title I designated district where 75% of students are economically disadvantaged, is the largest feeder into the CCP.

How can an NSF-funded nanotechnology program help lead and nucleate the broader national nanotechnology infrastructure ecosystem?

Opportunities in Operational Excellence

- NIST: NEMO / Nexus LIMS

How can an NSF-funded nanotechnology program help lead and nucleate the broader national nanotechnology infrastructure ecosystem?

Opportunities in Operational Excellence

- NIST: NEMO / Nexus LIMS

How can an NSF-funded nanotechnology program help lead and nucleate the broader national nanotechnology infrastructure ecosystem?

Opportunities in Operational Excellence

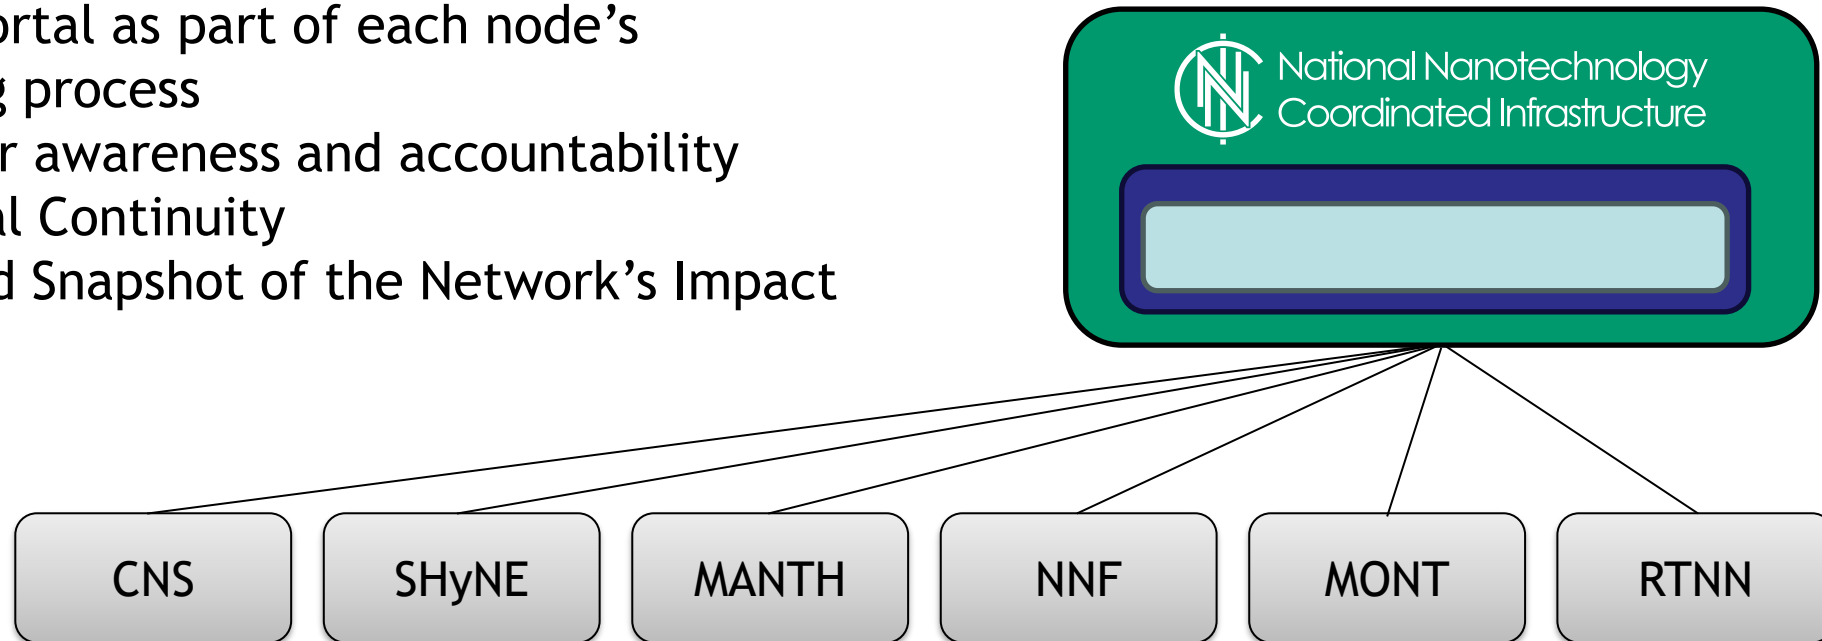

- NIST: NEMO / Nexus LIMS
- Establish an NNCI Central Registry

How can an NSF-funded nanotechnology program help lead and nucleate the broader national nanotechnology infrastructure ecosystem?

Establish an NNCI Central Registry

- New NNCI users register through a central national portal as part of each node's onboarding process
- Enable user awareness and accountability
- Operational Continuity
- On-demand Snapshot of the Network's Impact
